

Youth Educational Exercise 1

This exercise has been created not to test your memorized knowledge as it pertains to each recognized ARBA Breed, but instead, to get you practicing using the ARBA Standard of Perfection and learning where to find information contained in the SOP. The 50 questions in this exercise have been taken from the new 2011-2015 Standard of Perfection and the answers can be found anywhere within the SOP from Cover to Cover. Not only are you being asked to answer each question, but also document the page in the SOP where you found the answer. The answers will be posted on the WSRBA Website prior to the Badger RBA Show.

1. The two faults Americans have for their ears are lazy carriage and bell shaped ears. (Found on Page 58)
2. The six Self Varieties of Netherland Dwarfs are: Black, Blue, Chocolate, Lilac, White, Blue Eyed, and White, Ruby Eyed. (Found on Page 176)
